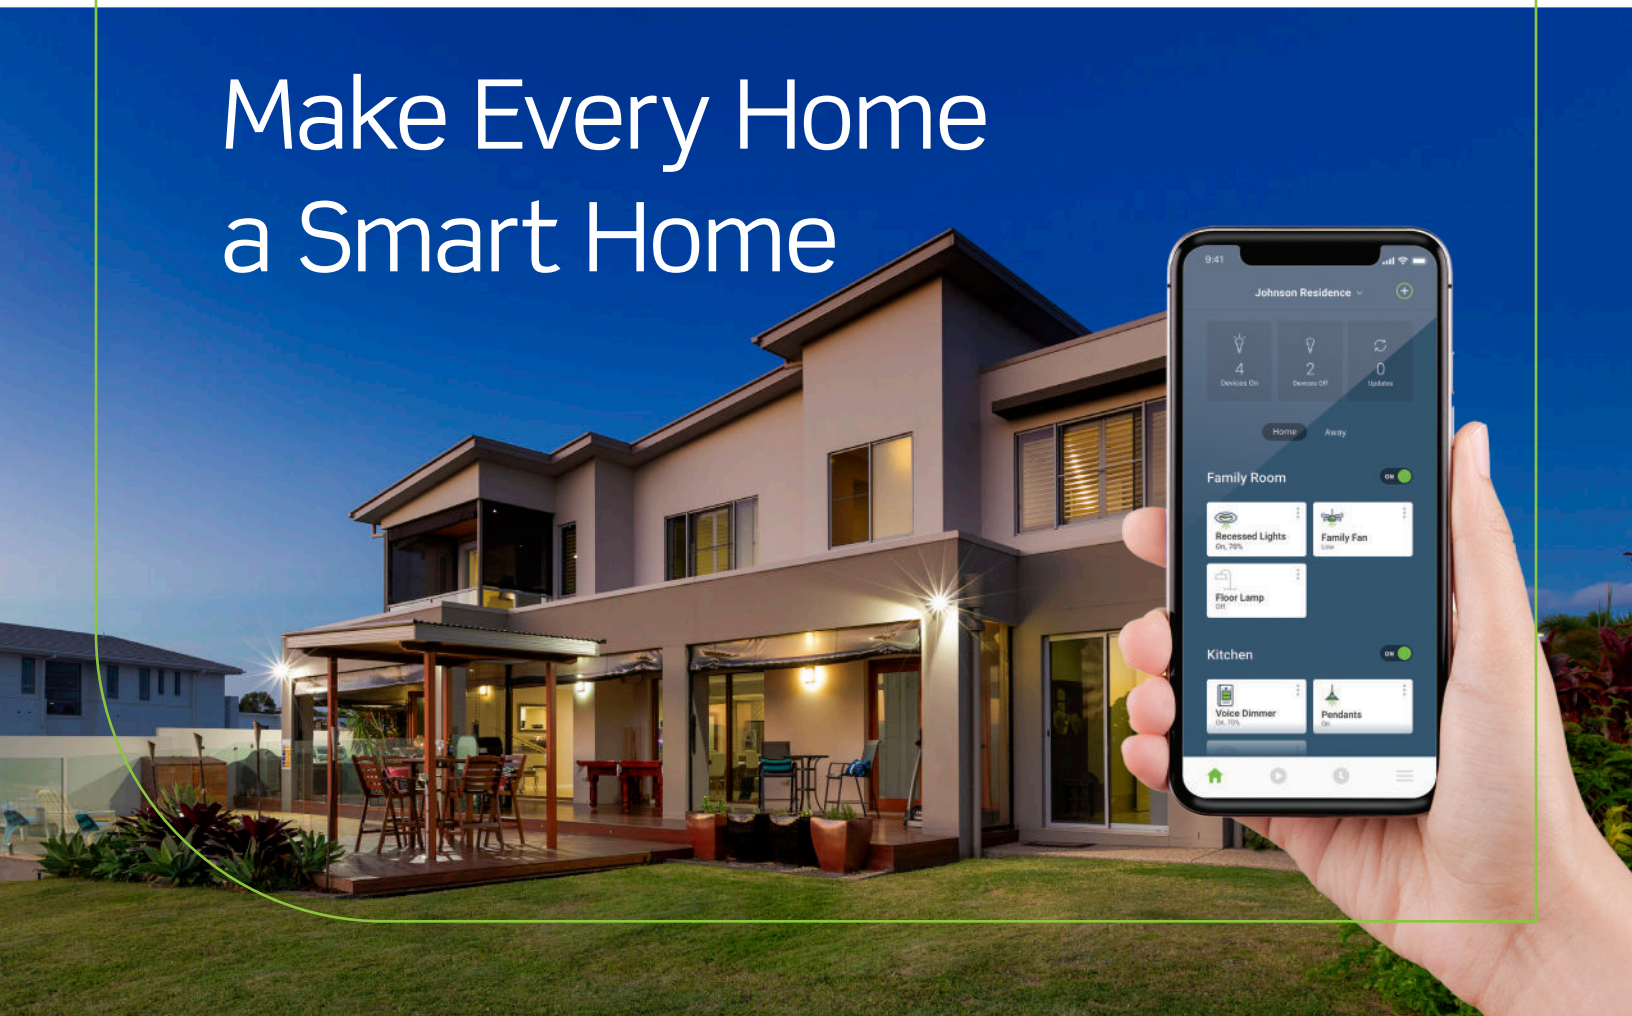
Wi Fi CERTIFIED

LEVITON®

Make Every Home a Smart Home



A Solution for Every Room and Home

My Leviton and Decora Smart Wi-Fi offers a full portfolio of connected lighting and load control devices so any home, new or old, can be a smart home. The collection includes dimmers, switches, smart plugs, fan controller, outlet, motion sensor, and options for homes that may not have neutral wiring.

Start small with a smart switch to automate your porch light so you never come home to a dark house, or go larger and outfit a room or your entire home. Expand the system at any time, making this the ideal solution to meet your smart home lighting and load control needs.

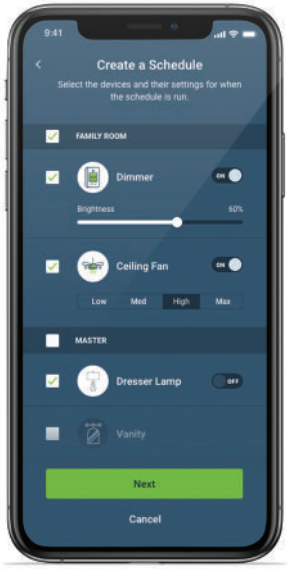
SCHLAGE

Flexible Control

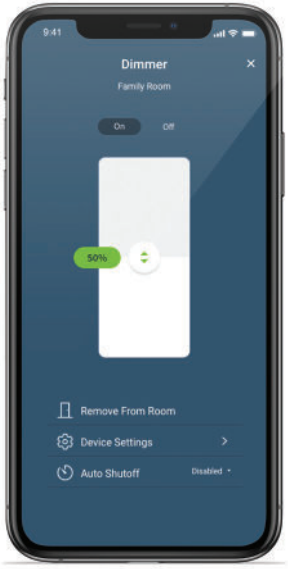
My Leviton App

Manage your whole home – capture room scenes, customize lighting settings such as fade rates, and enjoy convenient remote control of devices and activities.



Set Schedules

- Use the app to easily create schedules that turn lights on and off throughout the day



Control Individual Devices or Rooms

- Control lights, fans, and plug loads from anywhere
- Brighten a light fixture or quickly turn on an entire room

Simplify Automation

- Activities like “Movie Time” or “Game Night” make adjusting home lighting quick and easy
- Use your Voice, App, or Scene Controller Switch to control devices and lighting scenes

Complete Lighting Solution

Custom Lighting

Simplify lighting control with a smart dimmer to set the lights the way you want to match your lifestyle.

My Leviton plus Decora Smart equals best-in-class dimming options for both newer and older homes.

- Full range dimming performance with custom settings in the My Leviton app for preset lighting levels, fade rates, bulb types and more
- Schedule lights to dim/brighten or turn on/off at specific times or based on sunrise/sunset; use vacation mode to randomize lighting for a lived-in look when away from home

One-Touch Control

Scenes and Activities

Set the perfect mood by easily capturing a scene for one-touch recall. Make sure all lights are off when leaving your home.

Multi-button control is perfect for entryways and bedrooms to control room scenes or whole house lighting activities with the press of a button.

- Replace an existing switch to add three scene control buttons and a built-in smart switch for connected lights
- Create scenes and activities to control Decora Smart Wi-Fi devices such as “All Off”, “Movie Time”, “Party Mode”, “Game Night”, and more with simple app configuration of button functions
- Use with an Apple Home Hub to control HomeKit scenes and accessories
- Use with IFTTT for expanded automation across 3rd party services
- Engraved buttons available in all 6 color options can be designed and ordered through the My Leviton app*

*Custom engraved buttons are available in the U.S. only

Hands-Free Control

Motion Controlled Lighting

The Motion Sensing Dimmer automatically turns connected lights on and off based on motion. At night, lights can be set to come on at a lower level, such as in a kitchen, or you can use the built-in Guide Light feature to provide soft illumination in the dark, perfect for bathrooms and walk-in closets.

- Motion control features are easily configured through the My Leviton app with no complex programming
- Full range dimming performance with custom settings for preset light levels, fade rates, and bulb types
- Supports both Occupancy and Vacancy modes of operation
- Use Room Occupancy Response to turn ON/OFF multiple Decora Smart Wi-Fi devices in a room based on motion
- Motion Snooze temporarily pauses motion detection for a selected amount of time
- Built-in ambient light sensing can prevent lights from turning on if there is already enough sunlight in the room

Wired and Wire-Free Companions

Control Where You Need It

Dimmer and Switch Companions are for use in 3-way or multi-way applications where the same set of lights are being controlled from two or more different locations such as the top and bottom of a staircase, a long hallway, or open areas with multiple entrances. Wired and wire-free options are available.

- Pair one or multiple wired or wire-free companions with a primary Decora Smart device such as a switch, dimmer, or fan speed controller
- No app required for installation
- Wired Companions can be used in areas where there is already 3-way wiring in place
- Wire-Free Anywhere Companions can be placed anywhere additional control is needed. They can also be used to control devices plugged into Wi-Fi plug-ins or outlets
